PARIS, June 1.—Premier Doumergue and the other ministers of the French cabinet resigned today.

The ministry faced a deficit of hundred and seventy million dollars in the annual budget and the necessity of raising a hundred million to replenish the government's empty coffers, as well as borrowing two hundred and sixty million for military and naval expenses.

To meet the situation an alliance with the socialists in the chamber has been necessary. In return Deputy Juarez, socialist leader, demanded legislation which the minister preferred their resignation to granting.

SALEM, Ore., June 1.—The Rogue river public service corporation has completed filing on 1200 horse power in the Rogue river at Hells Gate by paying the state engineer \$666 in fees.

The state engineer took the matter under advisement, as there are three overlapping filings at this point.

**Weather Not Good for Grain—**Th hot, sultry weather of yesterday and today is not at all pleasing to local farmers, although they do not believe any damage has been done to the grain yet. Such weather, however, arouses in them a fear of the hot winds that sometimes cost them thousands of dollars.

## NEWS OF FARM AND RANGE

### "BEDDING OUT" PLAN ADVISED FOR SHEEP

#### FORESTRY PEOPLE SAY NEW WAY BENEFITS SHEEP AND GRASS.

Under Plan Suggested Herder Camps Wherever Sheep May Be; No Permanent Camp Ground for Use at Night.

As a result of experiments during the past few years the department of agriculture is now advocating the use of the bedding-out system of herding sheep in open ranges, instead of the old close-herding system which has heretofore been in use.

This system got its name from the fact that the herder who attends the band camps and beds his flocks wherever the sheep find themselves at night. Under the old plan he established a fixed camp and bed-ground and drove the sheep back to the same place each night.

Through experience on the national forest ranges last year the department states that lambs from bedded-out bands were five pounds heavier on an average at the end of the season than those which were trailed to and from established bed-grounds, and that the range can carry from 19 to 25 per cent more sheep than when so much is tramped out in traveling back and forth. The disadvantages of the old system, according to the department, were two-fold, those to the forage and those to the sheep.

The forage suffered by being tramped badly, and being actually destroyed at and near the bed-grounds; the sheep lost weight in going to and from the camps, and in dry weather suffered not a little from dust and from crowding.

Moreover, under the old system the sheep were kept pretty well bunched; under the new plan they graze at will in scattered, open flocks. During the day the herder moves about in a wide circuit around his charges, looking for tracks to see that none of the sheep have strayed beyond his circle. The sheep are constantly moving through new feed instead of traveling over areas already fed over.

Sherman County Crops — Jerry Stone, prominent Athena farmer, was here Saturday en route home from a trip to Sherman. He says the crop outlook there is very good but that farmers have been slow with their work compared with the farming methods in this county. There are some former Umatilla county farmers living there and they get good results by farming as it is done in this county.

**Holdman Wheat Good** — Wheat is now well headed out in the Holdman district and it is said harvesting in that section may start before the first of July this year. Hay cutting will be underway in about two weeks. The crop is good throughout that section though further rains will still be welcomed.

**Buyers to Shaniko in Private Car** — To attend the wool sale at Shaniko today, the wool buyers who have been making Pendleton their headquarters, left last night in a private car for the Wasco county sheep town.

**Crops Look Poor in Sherman** — That the crops in Sherman county looked poor to him is the statement made by Marion Jack, well known local farmer who has just returned from a fishing trip up the Deschutes. Much of the grain looks it was badly burnt, he says, while the Jim Hill mustard has literally taken section after section.

**Weather Not Good for Grain** — The hot, sultry weather of yesterday and today is not at all pleasing to local farmers, although they do not believe any damage has been done to the grain yet. Such weather, however, arouses in them a fear of the hot winds that sometimes cost them thousands of dollars.

## BUCKS LOSE LAST OF SERIES, 4 TO 7

NORTH YAKIMA, June 1.—(Special.)—Kile went six innings at the park yesterday afternoon and allowed the Bucks only two hits, fanning three of them. In the seventh, however, a single, an out and three more singles in succession, with a brace of stolen bases, were good for three runs and Peterson succeeded him in the eighth. The Braves had already scored five, all in the fourth, and they clinched it in the eighth with two more. McQuarry succeeded Daly after the fifth and for three innings pitched shutout ball, but then weakened.
